TO THE VOTERS OF DUBLIN:

Our Town Report presents some changes this year in both appearance and arrangement. Expressions of opinion concerning these changes are welcome.

The Board meets at their office in the Town House each Monday forenoon throughout the year. Town books are always open for inspection on these days.

It has been gratifying to your Board to be able to lower the tax rate in 1937 to \$2.30 per hundred.

Constructive criticism is helpful; favorable comment, if deserved, would be acceptable. Voters, desiring information concerning town affairs, are always welcome at the office.

REPORT OF THE ROAD AGENT

The roads were scraped and dragged several times during the summer. Two coats of calcium chloride were applied during the season, to the road on the south side of the Lake and on the upper Jaffrey road from Mrs. Gordon's avenue to the old No. 4 school-house site, from stock on hand at the town tool barn. The East View, Jackson and Cob meadow bridges were all re-planked.

During the past year 2779 yards of gravel were applied to T. R. A. and oiled roads and for ice sanding. All snow equipment and the Cletrac tractor were painted. All black tar roads were oiled, sanded, dragged and rolled. A new 16-foot road drag was built and several bad rocks which had interfered with snow plows, were

blasted out and removed. From the front section of the town's old unused Buffalo steam roller an excellent heavy roller was constructed for use on our roads.

The location selected for the T. R. A. project this season was on the road beginning at the outlet of the Lake and continuing west 3000 feet toward the Golf Links.

Few highways in town, with the exception of trunk lines, carry more summer travel over them than this one.

Under the supervision of the State Highway Division Headquarters, Keene, the road was widened, blind corners straightened and grades improved. Seven concrete culverts were installed, 60 feet of which were 12 inches and 60 feet 15 inches in diameter with headers laid in stones and finished in cement. About five tons of calcium chloride were applied to the finished gravel surface. The construction cost was unusually low, approximately \$1. per foot, and the work was completed in season to accommodate the heavy summer traffic.

REPORT OF COMMITTEE TO SECURE MORE BURIAL LOTS FOR THE DUBLIN CEMETERY

Two ways are available for increase of lot space.

One is for the town to buy land in an entirely new location and the other is to improve the slope near the lake at the west end of cemetery.

With our cemetery being a place of natural beauty we do not think it wise to give up its further expansion.

We feel that it is an important historical place where the town's earliest settlers are buried, also the soldiers of the Revolutionary war, War of 1812, French and Indian War, the Civil War and some who served this country in the late World War. The soldiers and citizens form a historical and sacred record done in stone and the memory of their lives forms a thread with the present which we cannot wish to break.

There is room for several new lots as the grounds now are but not for any great expansion.

We recommend that a start be made on the upper part of the slope at the west end to improve the land by removing some of the trees, so that work on making terraces can be started.

We consider a survey of the whole west slope should be made with a view to the best possible location of terraces and lots, thus adding still more beauty to our cemetery. We recommend the sum of five hundred dollars be raised and approved this year to start this work.

There is a demand for some lots for sale at present time and this might help some toward expense of the improvements.

HENRY N. GOWING

WILFRED M. FISKE

In response to an inquiry concerning availability of the tract of land adjoining the west wall of the cemetery, extending to the highway next the lake Mr. Francis E. Frothingham, of Boston, has addressed the following letter to a member of the Board of Selectmen:

"Not only do my Father and Mother lie in the Dublin Cemetery, but I should, of course in any case, be glad to be of assistance if I can.

"The piece of land of which you speak is, as you know, not one that has any great usefulness and but a small value, as a part of it is low lying. So I am disposed to give the entire piece to the cemetery if it would want to take it over and so relieve me of any taxes or other responsibility in connection with it. If the cemetery took the high land and left me only with the low land, that would be a piece obviously of no value and one on which I should think it would be unfair, under the circumstances, to tax me; so I make the other suggestion. In any event, I think there should be some engagement that it would not be used for any commercial or building purpose, in order to preserve the beauty of the immediate surroundings of the lake.

"I am not one of those men who want to have his name attached to any gift of this sort, but in memory of my Father and his love for Dublin to name it as you suggest would be pleasant.*

"Will you think this over and let me hear from you further?"

Sincerely yours,

(Signed) F. E. FROTHINGHAM

*Borrowed from bank, last year, to pay for new Oil Burner and its installation.

At a meeting of the Trustees of The Dublin Public Library Building, held at the home of Charles F. Appleton, on the 25th day of January, 1937, it was voted to purchase an Oil Burner for the Library building. A sum of \$270.00 was borrowed from The First National Bank of Peterborough, N. H., at 6% interest, to pay for the burner. The selectmen agreed to care for the fuel bills for one year, thus enabling us to concentrate our income upon the payment of the loan. This loan has now been reduced to \$200.00. The janitor's salary was reduced to \$75.00, thus giving us \$25.00 more to use for expenses.

This report was not included in last year's accounts, as the purchase and installation was not completed at the close of our books.

We, the Trustees of The Dublin Public Library Building, hereby submit this, our financial report, and certify that it is true to the best of our knowledge and belief.

REPORT OF LIBRARIAN

The report of the year ending January 1, 1938, is herewith submitted.

In June 1937, the Library committee decided to keep the library open one more day weekly. The following hours were adopted: Mondays, Wednesdays and Saturdays from two until four thirty o'clock in the afternoon. During the summer months Thursday evening from seven until nine o'clock. This has enabled the public better access to the library and far better circulation of the books.

In July, I attended one week's classes at the Commission's Summer School, held at the Manchester City Library. Special emphasis was placed on children's books and their department.

Miss Catherine Pratt, field worker from the commission, spent August seventeenth at the Library, "weeding out" books. Sixty were discarded.

May I express to Mrs. Alexander James, appreciation for the many tedious hours she has given, keeping our Nelson's encyclopedia refilled.

The average attendance for the past year has been thirty-one borrowers daily, with from forty to sixty books in circulation. 6240 books were borrowed last year.

Statistics, as above, prove the value that our library serves to the community.

Respectfully submitted,

DOROTHY WORCESTER, Librarian

REPORT OF THE DUBLIN SCHOOL BOARD

To the Citizens of the Dublin School District:

We herewith submit the one hundred and sixteenth annual report of our school.

The opening of school brought changes in the teaching staff. We were sorry to lose Miss Boucher and Miss McLeod, and feared it might be difficult to replace them with teachers qualified to carry on work in the special subjects. We were fortunate in the selection of Miss Worters and Miss Gunn, who in addition to their room work are proving themselves thoroughly competent to handle these extra subjects.

Miss Gunn takes care of the music under Mrs. Whitcomb and directs the popular harmonica band, as well as the physical education in Grades I-V.

Miss Worters directs the art in Grades I-V and the handicraft for girls in Grades VII-VIII.

Miss Grimes had added to her grade work the supervision of the sixth, seventh, and eighth grade girls in preparing the hot lunch, of which she is making a notable success.

Mr. Tobey, with valuable assistance from Mr. Clukay, has done splendid constructive work with the manual training class. It is planned to continue the correlation of manual training and art classes with dramatics, by project work on scenery and settings, for both educational and economical reasons.

It is hoped, also, that the woodlot acquired through Mr. Carey's generosity may be developed by these classes for outdoor cooking and eating in the warm weather, and that they may help in the equipping and decorating of the dining room and kitchen.

Much has been accomplished of what was planned and hoped for last year, a large part of it having been made possible by the building of the addition. Its possibilities have not yet been realized, but we feel we are justified in saying that already it is proving its value in service not only to the school, but to the community.

In this connection a statement regarding the use of the building may be of interest.

It is our hope that it will be used as much as possible for any legitimate community activity, which does not conflict with the interests of the Town Hall or Church Vestry. A charge must be made to cover janitor service, heating and lighting. According to present estimates, two dollars in the day time, and four dollars and fifty cents at night, with an extra charge of fifty cents for the use of the kitchen, should adequately cover these expenses.

This report would not be complete without an expression of appreciation to Mr. Record for his unfailing co-operation, and to Mr. Tobey for giving so generously of his time and talents to further the interests and happiness of the school and community.

**THE ANNUAL REPORT OF THE SUPERINTENDENT OF
SCHOOLS TO THE DUBLIN SCHOOL BOARD**

I submit at this time my fourth annual report of the Dublin schools, together with the statistical table and summary, and the report of Miss Margaret E. Harris, school nurse.

Two changes occurred in the Dublin teaching force at the opening of the school year. Miss Corine E. Boucher, who had taught four years in the intermediate grades, resigned to accept a position in Waltham, Massachusetts. As her successor Miss Norma L. Worters of Greenwood, Massachusetts was chosen. Miss Worters was graduated from Massachusetts School of Art in 1934, and, in addition to her practice teaching had experience in private school work.

Our schools also lost the valuable services of Miss Ruth L. McLeod who resigned at the close of the school year in June. For the primary school Miss Rosamond Gunn of Peterborough was secured. Miss Gunn, a graduate of Wheelock in 1936, had experience in conducting a kindergarten in Peterborough during the school year 1936-1937.

The enrollment of the Consolidated School for the fall term of 1937 was 83.

The changes and additions made to the school building during the summer of 1937 have added greatly to the usefulness of this school both as a well equipped modern building, and also as a community center.

The program of the school has been carried on along the lines established several years ago, which have worked out successfully, and we are finding that the graduates of this school readily take their places as an important unit in Peterborough High School.

It is the aim of the school department to maintain and constantly improve the Dublin Schools, and to develop the pupils along as many lines as possible.

I believe that our teaching staff sincerely appreciates the cordial support given them in their work.

I desire at this time to thank the school board, teachers, pupils, and all interested citizens for their co-operation in the development of the Dublin schools.

REPORT OF SCHOOL NURSE

Dublin

The annual examination of the pupils was conducted by Dr. D. M. Clark assisted by M. E. Harris, School Nurse, in October.

	No.
Pupils examined	82
Defective teeth	25
Defective vision	6
Diseased tonsils	15
Underweight 10%	10

Corrections

Diseased tonsils	10
Defective vision	2
Defective teeth	13
Underweight 10%	10

A very successful school dental clinic was held December 15-17, 1937. Dr. J. H. Grimes was the dentist. The dental clinic rates are greatly reduced and transportation problems eliminated; otherwise many of the children would be unable to have their work done. If it were not for the school dental clinics many children would never have any dental care.

Following is a report of the work done:

Pupils treated	27
Receiving free care	14
Paying full cost	13
Total cleanings	26
Temporary extractions	28
Permanent extractions	9
Amalgam fillings	20
Porcelain fillings	16
Treatments	4

Cod liver oil was furnished for all those who didn't have it at home. Of inestimable value is the hot lunch being served this year in addition to the Cod liver oil.

During the year the nurse made 81 school visits, 39 home visits, 16 official visits, speialed two sessions of tonsil clinics at Peterborough Hospital, and gave 13 treatments in school for sores and minor abrasions.

The annual allotment of days as per schedule—27.

Days worked by the nurse—26.

I thank the superintendent of schools, the members of the school board, the teachers, parents, pupils, Red Cross organization, and all others who contributed to the success of the health work.

Respectfully submitted,

MARGARET E. HARRIS, R. N.
